

Maths Trek covers the curriculum content and general capabilities for the Mathematics learning area F–6. Refer to the tables to see how the Maths Trek topics and investigations match to the Victorian Curriculum content descriptions and achievement standards for each year level.

| Strand | Content description | Topics | |
|--------|--|--|---|
| Number | Name, represent and order numbers including zero to at least 20, using physical and virtual materials and numerals (VC2MFN01) | 1.1 One 1.2 Two 2.1 Three 2.2 Count to three 3.2 Four 3.3 Five 4.3 Six 4.4 Seven 5.1 Ordinal numbers to 5th 7.1 Eight 7.2 Nine 7.3 Ten 8.1 Zero 8.3 Represent numbers to 10 10.1 Count to 10 11.1 Use ten frames to represent numbers to 10 12.1 One more than | 13.1 One less than 13.2 Count backwards from 10 14.1 Numbers before, after, in between 16.2 Numbers 11 to 15 17.2 Numbers 16 to 20 19.2 Represent numbers 11 to 15 20.2 Represent numbers 16 to 20 25.2 Order numbers to 20 26.2 Missing numbers to 20 28.2 Count forwards and backwards 28.3 Ordinal numbers to 10th 29.2 Count to 30 30.2 Use ten frames to represent numbers to 20 31.2 Missing numbers to 30 33.2 Order numbers to 30 |
| | Recognise and name the number of objects within a collection up to 5 using subitising (VC2MFN02) | 1.1 One1.2 Two2.1 Three2.2 Count to three | 3.2 Four3.3 Five9.1 Dot patterns |
| | Quantify and compare collections to at least 20 using counting and explain or demonstrate reasoning (VC2MFN03) | 3.4 Equal groups 4.1 Count and match one-to-one 8.2 Compare collections to 10 16.3 Count collections | 17.3 Count collections22.2 Compare collections to 20 |
| | Partition and combine collections up to 10 using part-part-whole relationships and subitising to recognise and name the parts (VC2MFN04) | 4.2 Make five10.3 Partition 6 and 712.3 Partition 8 and 913.3 Partition 10 | |
| | Represent practical situations, including simple financial situations, involving addition, subtraction and quantification with physical and virtual materials and use counting or subitising strategies (VC2MFN05) | 4.3 Six 4.4 Seven 7.1 Eight 7.3 Ten 16.1 Combine two groups 17.1 Combine two groups 19.1 Model addition 20.1 Addition: How many altogether? 21.1 Use beads to show addition 21.2 Make 10 22.1 Addition stories 22.4 Use ten frames to show addition 23.1 Model subtraction 23.2 Subtraction stories | 25.1 Find the difference 27.1 Draw pictures to show subtraction 28.1 Count on 1 and 2 29.1 Take away 29.3 Add more to make 10 30.3 Take-away stories 33.1 Add more to find the missing addend 33.3 Money 33.4 Find the missing group 34.4 Compare two groups to find the difference 35.1 Addition and subtraction |
| | Represent practical situations that involve equal sharing and grouping with physical and virtual materials and use counting or subitising strategies (VC2MFN06) | 30.1 Share equally31.1 Share equally34.1 Make equal groups | |

| Strand | Content description | Topics | |
|-------------|--|--|--|
| Algebra | Follow a short sequence of instructions; recognise, copy, continue and create repeating patterns represented in different ways (VC2MFA01) | 19.3 Copy a pattern 21.3 Identify the next item in a pattern 22.3 Describe and continue patterns 23.3 Continue and create patterns | 25.3 Identify missing elements in patterns Also covered in investigations: Inv: Oz-animal Olympics Inv: Hopscotch |
| Measurement | Identify and compare attributes of objects and events, including length, capacity, mass and duration, use direct comparisons and communicate reasoning (VC2MFM01) | Short and tall Long/short, wide/narrow, thick/thin Short and long Compare length Longer than, shorter than Duration of events | 18.3 Compare length 19.4 Heavy and light 20.3 Compare mass by hefting 21.4 Heavier, lighter, the same as 25.4 Full and empty 26.4 Holds more, holds less 27.3 Compare capacity |
| | Sequence days of the week and times of the day including morning, lunchtime, afternoon and night time, and connect them to familiar events and actions (VC2MFM02) | 7.4 Day and night 8.4 Days of the week: The Hungry Caterpillar 9.2 Days of the week 12.2 Yesterday, today, tomorrow | 18.2 Events in my day28.4 Before and after30.4 Sequence events |
| Space | Sort, name and create familiar shapes; recognise and describe familiar shapes within objects in the environment, giving reasons (VC2MFSP01) | 10.2 Lines and shapes10.4 Circles11.2 Triangles11.3 Squares12.4 Rectangles | 13.4 Sort shapes14.2 Name and sort shapes35.2 Sort objects |
| | Describe the position and location of themselves and objects in relation to other people and objects within a familiar space (VC2MFSP02) | 3.1 In front of, behind, between, next to 5.3 High and low, near and far 9.3 Position 26.3 Position | |
| Statistics | Collect, sort and compare data represented by objects and images in response to given investigative questions that have only 2 outcomes and relate to familiar situations (VC2MFST01) | 5.2 Sort data 14.3 Collect data 26.1 Collect data 27.2 Data displays 31.3 Collect data | 34.2 Use tally marks to show data35.2 Sort objects35.3 Interpret data displays |

Foundation Achievement Standard

| Achievement standard | Topics and investigations | |
|--|--|---|
| By the end of Foundation, students make connections between number names, numerals and position in the sequence of numbers from zero to at least 20. | One Two Three Count to three Four Five Six Seven Ordinal numbers to 5th Eight Ordinal numbers to 5th Eight Nine Ten Zero Represent numbers to 10 Count to 10 Use ten frames to represent numbers to 10 One more than One less than Count backwards from 10 | 14.1 Numbers before, after, in between 16.2 Numbers 11 to 15 17.2 Numbers 16 to 20 19.2 Represent numbers 11 to 15 20.2 Represent numbers 16 to 20 25.2 Order numbers to 20 26.2 Missing numbers to 20 28.2 Count forwards and backwards 28.3 Ordinal numbers to 10th 29.2 Count to 30 30.2 Use ten frames to represent numbers to 20 31.2 Missing numbers to 30 33.2 Order numbers to 30 Inv: Oz-animal Olympics Inv: Zoo escape |
| They use subitising and counting strategies to quantify collections. | 1.1 One 1.2 Two 2.1 Three 2.2 Count to three 3.2 Four 3.3 Five 9.1 Dot patterns | Inv: Oz-animal Olympics Inv: Zoo escape Inv: Hungry billy goats |
| Students compare the size of collections to at least 20. | 3.4 Equal groups 4.1 Count and match one-to-one 8.2 Compare collections to 10 16.3 Count collections 17.3 Count collections 22.2 Compare collections to 20 | Inv: Oz-animal Olympics Inv: Zoo escape |
| They partition and combine collections up to 10 in different ways, representing these with numbers. | 4.2 Make five10.3 Partition 6 and 712.3 Partition 8 and 913.3 Partition 10 | Inv: Zoo escape Inv: Hungry billy goats |
| Students represent practical situations, including simple financial situations involving money, that involve quantifying, equal sharing, adding to and taking away from collections to at least 10. | 4.3 Six 4.4 Seven 7.1 Eight 7.3 Ten 16.1 Combine two groups 17.1 Combine two groups 19.1 Model addition 20.1 Addition: How many altogether? 21.1 Use beads to show addition 21.2 Make 10 22.1 Addition stories 22.4 Use ten frames to show addition 23.1 Model subtraction 23.2 Subtraction stories 25.1 Find the difference 27.1 Draw pictures to show subtraction | 28.1 Count on 1 and 2 29.1 Take away 29.3 Add more to make 10 30.1 Share equally 30.3 Take-away stories 31.1 Share equally 33.1 Add more to find the missing addend 33.3 Money 33.4 Find the missing group 34.1 Make equal groups 34.3 Shopping 34.4 Compare two groups to find the difference 35.1 Addition and subtraction Inv: Zoo escape Inv: Hungry billy goats |

Foundation Achievement Standard

| Achievement standard | Topics and investigations | |
|--|--|--|
| Students represent, continue and create simple repeating patterns. | 19.3 Copy a pattern21.3 Identify the next item in a pattern22.3 Describe and continue patterns | 23.3 Continue and create patterns25.3 Identify missing elements in patterns |
| Students identify the attributes of mass, capacity, length and duration, and use direct comparison strategies to compare objects and events. | Short and tall Long/short, wide/narrow, thick/thin Short and long High and low, near and far Compare length Longer than, shorter than Duration of events Compare length | 19.4 Heavy and light 20.3 Compare mass by hefting 21.4 Heavier, lighter, the same as 25.4 Full and empty 26.4 Holds more, holds less 27.3 Compare capacity Inv: Oz-animal Olympics |
| They sequence and connect familiar events to the time of day. | 7.4 Day and night 8.4 Days of the week: The Hungry Caterpillar 9.2 Days of the week 12.2 Yesterday, today, tomorrow | 18.2 Events in my day28.4 Before and after30.4 Sequence events |
| Students name, create and sort familiar shapes and give their reasoning. | 10.2 Lines and shapes10.4 Circles11.2 Triangles11.3 Squares12.4 Rectangles | 13.4 Sort shapes14.2 Name and sort shapesInv: Hopscotch |
| They describe the position and the location of themselves and objects in relation to other objects and people within a familiar space. | 3.1 In front of, behind, between, next to9.3 Position26.3 Position | Inv: Oz-animal Olympics |
| Students collect, sort and compare data in response to questions in familiar contexts. | 5.2 Sort data 14.3 Collect data 26.1 Collect data 27.2 Data displays 31.3 Collect data 34.2 Use tally marks to show data | 35.2 Sort objects35.3 Interpret data displaysInv: Oz-animal OlympicsInv: Zoo escape |

|---------|--|---|--|
| Number | Recognise, represent and order numbers to at least 120 using physical and virtual materials, numerals, number lines and charts (VC2M1N01) | Counting in ones Reading and writing numbers to 20 Counting in ones to 100 Identifying Australian coins and notes Representing two-digit numbers to 30 | 3.3 Reading and writing two-digit numbers 9.1 Ordering numbers to 100 11.1 Representing two-digit numbers 17.1 Representing tens and ones 19.1 Count and order numbers to 150 |
| | Partition one- and two-digit numbers in different ways using physical and virtual materials, including partitioning two-digit numbers into tens and ones (VC2M1N02) | 4.1 Partitioning to 10 10.1 Counting groups of 10 14.1 Partitioning to 20 18.1 Writing tens and ones 23.1 Partitioning tens and ones 25.2 Partitioning tens and ones 30.1 Partitioning two-digit numbers | |
| | Quantify sets of objects, to at least 120, by partitioning collections into equal groups using number knowledge and skip counting (VC2M1N03) | 9.2 Counting collections to 10023.3 Counting collections to 150 | |
| | Add and subtract numbers within 20, using physical and virtual materials, part-part-whole knowledge to 10 and a variety of calculation strategies (VC2M1N04) | 5.1 Addition to 10 - draw and write 7.1 Addition number sentences 9.3 Counting on 1 or 2 10.2 Friends of 10 11.2 Turnarounds 12.1 Addition using think boards 12.2 Doubles and near doubles 15.1 Subtraction | 16.1 Subtraction number sentences 16.2 Subtraction using think boards 17.2 Counting back 1 or 2 19.2 Think addition to subtract 20.1 Addition and subtraction are related 22.1 Addition facts 23.2 Subtraction facts |
| | Use mathematical modelling to solve practical problems involving additive situations, including simple money transactions; represent the situations with diagrams, physical and virtual materials; use calculation strategies to solve the problem (VC2M1N05) | 8.1 Addition using number lines 17.3 One more, one less, ten more, ten less 18.2 Subtraction – find the difference 18.3 Addition using ten frames and number lines 25.3 Addition – split and add 27.1 Working with coins and notes | 28.2 Addition and subtraction money problems 31.1 Addition to two digits using 100s charts 31.3 Subtraction to two digits using 100s charts |
| | Use mathematical modelling to solve practical problems involving equal sharing and grouping; represent the situations with diagrams, physical and virtual materials, and use calculation strategies to solve the problem (VC2M1N06) | 25.1 Equal groups26.2 Equal groups26.3 Sharing equally27.2 How many groups?27.3 Sharing and grouping | |
| Algebra | Recognise, continue and create pattern sequences, with numbers, symbols, shapes and objects including Australian coins, formed by skip counting, initially by twos, fives and tens (VC2M1A01) | 2.3 Skip counting by twos to 20 7.2 Skip counting by fives 8.2 Skip counting by tens 14.2 Skip counting by twos to 100 16.3 Growing patterns | 20.3 Describing number patterns22.2 Keeping the pattern going24.1 Writing number patterns and rules |

| Strand | Content description | Topics | |
|-------------|---|---|--|
| Algebra | Recognise, continue and create repeating patterns with numbers, symbols, shapes and objects, identifying the repeating unit and recognising the importance of repetition in solving problems (VC2M1A02) | 15.2 Repeating patterns 22.2 Keeping the pattern going Also covered in problem-solving lessons: 3.4 Making a table or chart 4.4 Finding a pattern 19.4 Working backwards | |
| Measurement | Compare directly and indirectly and order objects and events using attributes of length, mass, capacity and duration, communicating reasoning (VC2M1M01) | 4.2 Comparing mass – heavier, lighter 4.3 Comparing length – shorter, longer, taller 30.2 Comparing heights 31.2 How much does it hold? | |
| | Measure the length of shapes and objects using informal units, recognising that units need to be uniform and used end-to-end (VC2M1M02) | 5.3 Measuring length using informal units19.3 Informal units to measure length | |
| | Describe the duration and sequence of events using years, months, weeks, days and hours (VC2M1M03) | 3.1 Days, weeks, months, years 10.3 Calendars and months 15.3 How long does it take? 28.3 Months and seasons | |
| Space | Make, compare and classify familiar shapes; recognise familiar shapes and objects in the environment, identifying the similarities and differences between them (VC2M1SP01) | 7.3 Which shape is that?8.3 Classifying shapes24.2 Building objects with blocks28.1 Triangles and quadrilaterals | |
| | Give and follow directions to move people and objects to different locations within a space (VC2M1SP02) | 11.3 Describing position 12.3 Following directions 20.2 Using ordinal and positional language 26.1 Following and writing directions | |
| Statistics | Acquire and record data for categorical variables in various ways including using digital tools, objects, images, drawings, lists, tally marks and symbols (VC2M1ST01) | 5.2 Collecting data using tally marks22.3 Collecting data30.3 Collecting data | |
| | Represent collected data for a categorical variable using one- to-one displays and digital tools where appropriate; compare the data using frequencies and discuss the findings (VC2M1ST02) | 14.3 Object graphs24.3 Picture graphs | |

| Level 1 Achievement Standard | | | |
|---|--|--|--|
| Achievement standard | Topics and investigations | | |
| By the end of Level 1, students connect number names, numerals and quantities, and order numbers to at least 120. | Counting in ones Reading and writing numbers to 20 Counting in ones to 100 Identifying Australian coins and notes Representing two-digit numbers to 30 Reading and writing two-digit numbers Ordering numbers to 100 | 11.1 Representing two-digit numbers 17.1 Representing tens and ones 19.1 Count and order numbers to 150 Inv: Ramp champ Inv: Numbers up Inv: Let's roll Inv: Breakfast cafe Inv: Win or lose | |
| They demonstrate how one- and two-digit numbers can be partitioned in different ways and that two-digit numbers can be partitioned into tens and ones. | 4.1 Partitioning to 10 10.1 Counting groups of 10 14.1 Partitioning to 20 18.1 Writing tens and ones 23.1 Partitioning tens and ones | 25.2 Partitioning tens and ones30.1 Partitioning two-digit numbersInv: Numbers upInv: Let's roll | |
| Students partition collections into equal groups and skip count in twos, fives or tens to quantify collections to at least 120. | 9.2 Counting collections to 10023.3 Counting collections to 150 | Inv: Plenty of popsticks | |
| They solve problems involving addition and subtraction of numbers to 20 and use mathematical modelling to solve practical problems involving addition, subtraction, equal sharing and grouping, using calculation strategies. | 5.1 Addition to 10 – draw and write 7.1 Addition number sentences 8.1 Addition using number lines 9.3 Counting on 1 or 2 10.2 Friends of 10 11.2 Turnarounds 12.1 Addition using think boards 12.2 Doubles and near doubles 15.1 Subtraction 16.1 Subtraction number sentences 16.2 Subtraction using think boards 17.2 Counting back 1 or 2 17.3 One more, one less, ten more, ten less 18.2 Subtraction – find the difference 18.3 Addition using ten frames and number lines 19.2 Think addition to subtract 20.1 Addition and subtraction are related 22.1 Addition facts | 23.2 Subtraction facts 25.1 Equal groups 25.3 Addition – split and add 26.2 Equal groups 26.3 Sharing equally 27.1 Working with coins and notes 27.2 How many groups? 27.3 Sharing and grouping 28.2 Addition and subtraction money problems 31.1 Addition to two digits using 100s charts 31.3 Subtraction to two digits using 100s charts Inv: Numbers up Inv: Let's roll Inv: Plenty of popsticks Inv: Win or lose | |
| Students use numbers, symbols and objects, including Australian coins, to create skip counting and repeating patterns, identifying the repeating unit. | 2.3 Skip counting by twos to 20 7.2 Skip counting by fives 8.2 Skip counting by tens 14.2 Skip counting by twos to 100 15.2 Repeating patterns | 16.3 Growing patterns20.3 Describing number patterns22.2 Keeping the pattern going24.1 Writing number patterns and rules | |
| Students compare and order objects and events based on the attributes of length, mass, capacity and duration, communicating their reasoning. | 3.1 Days, weeks, months, years 4.2 Comparing mass – heavier, lighter 4.3 Comparing length – shorter, longer, taller 10.3 Calendars and months | 15.3 How long does it take?28.3 Months and seasons30.2 Comparing heights31.2 How much does it hold?Inv: Ramp champ | |

| Achievement standard | Topics and investigations | |
|---|--|--|
| They measure the length of shapes and objects using uniform informal units. | 5.3 Measuring length using informal units19.3 Informal units to measure length | Inv: Ramp champ |
| Students make, compare and classify shapes and objects using identifiable features. | 7.3 Which shape is that?8.3 Classifying shapes24.2 Building objects with blocks28.1 Triangles and quadrilaterals | |
| They give and follow directions to move people and objects within a space. | Describing position Following directions Using ordinal and positional language Following and writing directions | |
| Students collect and record categorical data, create one-to-one displays, and compare and discuss the data using frequencies. | 5.2 Collecting data using tally marks 14.3 Object graphs 22.3 Collecting data | 24.3 Picture graphs30.3 Collecting dataInv: Ramp champ |

Level 2 Content Descriptions

| Strand | Content description | Topics | |
|---------|---|--|--|
| Number | Recognise, represent and order numbers to at least 1000 using physical and virtual materials, numerals and number lines (VC2M2N01) | Tens and ones with blocks Read, write and represent numbers to 150 Number patterns beyond 100 Grouping to count collections Number lines to 500 | 7.1 Ordering numbers to 500 9.1 Read, write and represent numbers to 500 10.1 Ordering numbers to 1000 20.2 Number lines to 1000 24.1 Numbers beyond 1000 |
| | Partition, rearrange, regroup and rename two- and three-digit numbers using standard and non- standard groupings; recognise the role of a zero digit in place value notation (VC2M2N02) | 3.2 Place value to hundreds 11.1 Place value to hundreds 12.1 The role of a zero 14.1 Number expanders 14.2 Expanded notation 17.1 Place value problems 18.1 Expanded notation | 22.2 Regrouping and renaming numbers23.1 Place value to thousands30.1 Regrouping and renaming numbers |
| | Recognise and describe one-half as one of 2 equal parts of a whole and connect halves, quarters and eighths through repeated halving (VC2M2N03) | 25.2 Fractions26.2 Fractions as part of a whole27.1 Fractions as part of a group | |
| | Add and subtract one- and two-digit numbers, representing problems using number sentences, and solve using part part whole reasoning and a variety of calculation strategies (VC2M2N04) | 5.2 Addition using friendly jumps 7.2 Addition using friendly pairs 8.2 Subtraction using friendly jumps 9.2 Extending addition facts 10.2 Addition using split strategy 10.3 Subtraction using split strategy 11.2 Addition with bar models | 14.3 Extending subtraction facts 15.1 Subtraction with bar models 17.2 Addition using jump strategy 19.1 Subtraction using jump strateg 25.1 Addition and subtraction problems |
| | Multiply and divide by one-digit numbers using repeated addition, equal grouping, arrays, and partitioning to support a variety of calculation strategies (VC2M2N05) | 20.1 Multiplication 22.1 Groups and arrays 24.3 Multiplication problem-solving 26.1 Division – How many in each group? 27.2 Division – How many groups? 30.2 Multiplication and division problems | |
| | Use mathematical modelling to solve practical problems involving additive and multiplicative situations, including money transactions; represent situations and choose calculation strategies; interpret and communicate solutions in terms of the context (VC2M2N06) | 18.2 Do I have enough money?19.2 Coins and notes20.3 Problem-solving with money | |
| Algebra | Recognise, describe and create additive patterns that increase or decrease by a constant amount, using numbers, shapes and objects, and identify missing elements in the pattern (VC2M2A01) | 25.3 Connecting and describing patterns 27.3 Number patterns 28.1 Repeating and growing patterns 28.2 Odd and even number patterns | |

| Content description | Topics | |
|---|--|--|
| Recall and demonstrate proficiency with addition facts to 20; extend and apply facts to develop related subtraction facts (VC2M2A02) | 2.2 Addition using ten frames 4.1 Partitioning to 20 4.2 Addition facts 8.1 Subtraction facts 16.1 Addition and subtraction facts are related | |
| Recall and demonstrate proficiency with multiplication facts for twos; extend and apply facts to develop the related division facts using doubling and halving (VC2M2A03) | 23.2 Multiplication facts for 226.3 Doubling and halving numbers28.3 Multiplication and division facts are related | |
| Apply repetition in arithmetic operations, including multiplication as repeated addition and division as repeated subtraction (VC2M2A04) | 2.1 Number patterns beyond 100 20.1 Multiplication 26.1 Division – How many in each group? 27.2 Division – How many groups? | Also covered in problem-solving lessons 7.4 Problem-solving practice 18.4 Solving a simpler problem |
| Measure and compare objects based on length, capacity and mass using appropriate uniform informal units and smaller units for accuracy when necessary (VC2M2M01) | 12.2 Measuring length15.3 Comparing mass16.3 Measuring mass23.3 Measuring length24.2 Measuring capacity | |
| Identify common uses and represent halves, quarters and eighths in relation to shapes, objects and events (VC2M2M02) | 30.3 Representing halves, quarters, eighths | |
| Identify the date and determine the number of days between events using calendars (VC2M2M03) | 3.1 Months of the year5.3 Calendars31.2 Reading calendars | |
| Recognise and read the time represented on an analog clock to the hour, half-hour and quarter- hour (VC2M2M04) | 17.3 Time – o'clock 18.3 Time – o'clock, half past 19.3 Time – quarter past, half past 22.3 Time – quarter past, quarter to | |
| Identify, describe and demonstrate quarter, half, three-quarter and full measures of turn in everyday situations (VC2M2M05) | 31.3 Turns | |
| Recognise, compare and classify shapes, referencing the number of sides and using spatial terms such as 'opposite', 'parallel', 'curved' and 'straight' (VC2M2SP01) | 7.3 Parallel lines 8.3 Classifying shapes 11.3 Features of shapes 12.3 Recognise and draw shapes | |
| Locate positions in two- dimensional representations of a familiar space; move positions by following directions and pathways (VC2M2SP02) | 9.3 Identifying position15.2 Maps, pathways, directions | |
| | Recall and demonstrate proficiency with addition facts to 20; extend and apply facts to develop related subtraction facts (VC2M2A02) Recall and demonstrate proficiency with multiplication facts for twos; extend and apply facts to develop the related division facts using doubling and halving (VC2M2A03) Apply repetition in arithmetic operations, including multiplication as repeated addition and division as repeated subtraction (VC2M2A04) Measure and compare objects based on length, capacity and mass using appropriate uniform informal units and smaller units for accuracy when necessary (VC2M2M01) Identify common uses and represent halves, quarters and eighths in relation to shapes, objects and events (VC2M2M02) Identify the date and determine the number of days between events using calendars (VC2M2M03) Recognise and read the time represented on an analog clock to the hour, half-hour and quarter- hour (VC2M2M04) Identify, describe and demonstrate quarter, half, three-quarter and full measures of turn in everyday situations (VC2M2M05) Recognise, compare and classify shapes, referencing the number of sides and using spatial terms such as 'opposite', 'parallel', 'curved' and 'straight' (VC2M2SP01) Locate positions in two- dimensional representations of a familiar space; move positions by following directions and pathways | Recall and demonstrate proficiency with addition facts to 20; extend and apply facts to develop related subtraction facts (VC2M2A02)2.2Addition facts (1) Partitioning to 20 (4) Addition facts (1) Addition facts (1) Addition and subtraction facts are relatedRecall and demonstrate proficiency with multiplication facts for twos: extend and apply facts to develop the related division facts using daubling and halving (VC2M2A03)23.2Multiplication facts for 2 (2.3) Multiplication and division facts are relatedApply repetition in arithmetic operations, including multiplication as repeated addition and division facts assing appropriate uniform (VC2M2A04)2.1Number patterns beyond 100 (20) Multiplication 20.1Measure and compare objects based on length, capacity and mass using appropriate uniform (VC2M2M01)2.1Number patterns beyond 100 (2.1Identify common uses and represent halves, quarters and eighths in relation to shopes, objects and events (VC2M2M02)2.2Measuring length 15.3Identify the date and determine the represented on an analog clock to the hour, half-hour and quarter- hour (VC2M2M04)3.1Months of the year 5.3Recognise and read the time represented on an analog clock to the hour, half-three-quarter and full measures of turn in everyday situations (VC2M2M05)3.3Parallel lines 8.3Recognise, compare and classify shopes, referencing the number of sides and using spatial terms such as oposite", parallel, "curved" and 5.33.3Features of shopes 1.3Recognise, compare and classify shopes, referencing the number of sides and using spatial terms such <br< td=""></br<> |

| Level 2 Achievement Standard | | | | |
|---|---|--|--|--|
| Achievement standard | Topics and investigations | | | |
| They recall and demonstrate proficiency with addition and subtraction facts within 20 and multiplication facts for twos. | 2.2 Addition using ten frames 4.1 Partitioning to 20 4.2 Addition facts 8.1 Subtraction facts 16.1 Addition and subtraction facts are related | 23.2 Multiplication facts for 226.3 Doubling and halving numbers28.3 Multiplication and division facts are related | | |
| Students use uniform informal units to measure and compare shapes and objects. | 12.2 Measuring length15.3 Comparing mass16.3 Measuring mass23.3 Measuring length24.2 Measuring capacity | Inv: Marble ramp Inv: Up, up and away | | |
| They determine the number of days between events using a calendar and read time on an analog clock to the hour, half hour and quarter hour. | 3.1 Months of the year 5.3 Calendars 17.3 Time – o'clock 18.3 Time – o'clock, half past 19.3 Time – quarter past, half past | 22.3 Time – quarter past, quarter to31.2 Reading calendarsInv: All about birthdays | | |
| Students use quarter, half, three-quarter and full measures of turn in everyday situations. | 31.3 Turns | | | |
| Students compare and classify shapes, describing features using formal spatial terms. | 7.3 Parallel lines8.3 Classifying shapes11.3 Features of shapes12.3 Recognise and draw shapes | Inv: Marble ramp Inv: Paper chain patterns | | |
| They locate and identify positions of features in two-dimensional representations and move position by following directions and pathways. | 9.3 Identifying position15.2 Maps, pathways, directions | Inv: Marble ramp | | |
| Students use a range of methods to collect, record, represent and interpret categorical data in response to questions. | 3.3 Picture graphs 4.3 Collecting data using tally marks 16.2 Column graphs 31.1 Interpreting graphs | Inv: All about birthdays Inv: Marble ramp Inv: Up, up and away | | |

Level 3 Content Descriptions

| Strand | Content description | Topics | |
|--------|---|---|---|
| Number | Identify, explain and use the properties of odd and even numbers (VC2M3N01) | Topics covering this concept can be found in: Maths Trek 2 28.2 Odd and even number patterns | Maths Trek 4 2.2 Odd and even numbers 2.3 Properties of odd and even numbers |
| | Recognise, represent and order natural numbers using naming and writing conventions for numerals beyond 10 000 (VC2M3N02) | Regrouping numbers Place value to thousands Expanded notation Counting on and back by 1, 10, 100 Comparing numbers to 10 000 Ordering numbers to 10 000 | 10.2 Place value to ten thousands 19.1 Place value beyond ten thousands 28.1 Japanese numeral system 32.1 Comparing and ordering numbers to 10 000 |
| | Recognise and represent unit fractions including $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$, $\frac{1}{5}$ and $\frac{1}{10}$ and their multiples in different ways; combine fractions with the same denominator to complete the whole (VC2M3N03) | 29.3 Fractions as part of a whole30.1 Fractions as part of a group30.2 Fractions on a number line30.3 Fractions as division | |
| | Add and subtract two- and three- digit numbers using place value to partition, rearrange and regroup numbers to assist in calculations without a calculator (VC2M3N04) | Regrouping numbers Addition with partitioning Subtraction with partitioning Addition with bar models Subtraction with bar models Addition | 14.2 Subtraction19.2 Addition to three digits20.2 Subtraction to three digits21.3 Inverse operations28.2 Addition and subtraction |
| | Multiply and divide one- and two-digit numbers, representing problems using number sentences, diagrams and arrays, and using a variety of calculation strategies (VC2M3N05) | 14.3 Solving problems with bar models17.3 Multiplication20.3 Multiplication problem-solving | 23.2 Input and output24.3 Division problem-solving25.1 Division30.3 Fractions as division |
| | Estimate the quantity of objects in collections and make estimates when solving problems to determine the reasonableness of calculations (VC2M3N06) | 20.1 Rounding to tens and hundreds23.1 Estimation strategies | |
| | Recognise the relationships between dollars and cents and represent money values in different ways (VC2M3N07) | 21.1 Equivalent values of money21.2 Dollars and cents | |
| | Use mathematical modelling to solve practical problems involving additive and multiplicative situations including financial contexts; formulate problems using number sentences and choose calculation strategies, using digital tools where appropriate; interpret and communicate solutions in terms of the situation (VC2M3N08) | 2.1 Addition with partitioning 2.2 Subtraction with partitioning 4.3 Number sentences and word problems 10.3 Addition with bar models 11.1 Subtraction with bar models 11.3 Equivalent number sentences 14.3 Solving problems with bar models 16.1 Number patterns | |

| Strand | Content description | Topics | |
|-------------|---|--|---|
| Number | Follow and create algorithms involving a sequence of steps and decisions to investigate numbers; describe any emerging patterns (VC2M3N09) | 16.1 Number patterns16.3 Multiples and repeated addition23.2 Input and output | |
| Algebra | Recognise and explain the connection between addition and subtraction as inverse operations, apply to partition numbers and find unknown values in number sentences (VC2M3A01) | 21.3 Inverse operations | |
| | Extend and apply knowledge of addition and subtraction facts to 20 to develop efficient mental strategies for computation with larger numbers without a calculator (VC2M3A02) | 1.2 Fact families for addition and subtraction | |
| | Recall and demonstrate proficiency with multiplication facts for 3, 4, 5 and 10; extend and apply facts to develop the related division facts (VC2M3A03) | 4.2 Multiplication by 10 16.2 Multiples 2, 3, 4, 5, 10 16.3 Multiples and repeated addition 17.1 Multiplication facts 3, 4 17.2 Multiplication facts 5, 10 | 24.1 Division facts 3, 424.2 Division facts 5, 1030.3 Fractions as division |
| Measurement | Identify which metric units are used to measure everyday items; use measurements of familiar items and known units to make estimates (VC2M3M01) | 8.1 Measuring with metres 12.1 Measuring with kilograms 12.2 Measuring with grams 15.2 Measuring with litres 15.3 Measuring with millilitres | |
| | Measure and compare objects using familiar metric units of length, mass and capacity, and instruments with labelled markings (VC2M3M02) | 8.1 Measuring with metres 8.2 Measuring with centimetres 8.3 Measuring with metres and centimetres 12.1 Measuring with kilograms | 12.2 Measuring with grams 12.3 Measuring with kilograms and grams 15.2 Measuring with litres 15.3 Measuring with millilitres |
| | Recognise and use the relationship between formal units of time including days, hours, minutes and seconds to estimate and compare the duration of events (VC2M3M03) | 29.1 Seconds, minutes, hours, days29.2 Duration of time | |
| | Describe the relationship between the hours and minutes on analog and digital clocks, and read the time to the nearest minute (VC2M3M04) | 7.1 Time past the hour 15.1 Time to the hour 19.3 Time to and past the hour 23.3 Time to the nearest minute | |
| | Identify angles as measures of turn and use right angles as a reference to compare angles in everyday situations(VC2M3M05) | | |

| Level 3 | Content Descriptions | |
|-------------|--|---|
| Strand | Content description | Topics |
| Space | Make, compare and classify objects, identifying key features and explaining why these features make them suited to their uses (VC2M3SP01) | 25.3 Connecting cubes 26.1 Face, edge, vertex 26.2 Pyramids and prisms 26.3 Cylinders, cones, spheres |
| | Interpret and create two- dimensional representations of familiar environments, locating key landmarks and objects relative to each other (VC2M3SP02) | 32.3 Maps and plans |
| Statistics | Acquire data for categorical and discrete numerical variables to address a question of interest or purpose by observing, collecting and accessing data sets; record the data using appropriate methods including frequency tables and spreadsheets (VC2M3ST01) | 6.1 Collecting and organising data 6.2 Predicting possible outcomes 6.3 Predicting possible outcomes with spinners |
| | Create and compare different graphical representations of data sets including using software where appropriate; interpret the data in terms of the context (VC2M3ST02) | 6.1 Collecting and organising data 7.2 Column graphs 7.3 Interpreting graphs 10.1 Picture graphs 11.2 Comparing tables and graphs 28.3 Column graphs |
| | Conduct guided statistical investigations involving the collection, representation and interpretation of data for categorical and discrete numerical variables with respect to questions of interest (VC2M3ST03) | 6.1 Collecting and organising data 6.2 Predicting possible outcomes 6.3 Predicting possible outcomes with spinners |
| Probability | Identify practical activities and everyday events that involve chance, and describe possible outcomes and events as 'likely' or 'unlikely' and identify some events as 'certain' or 'impossible', explaining reasoning(VC2M3P01) | 6.2 Predicting possible outcomes6.3 Predicting possible outcomes with spinners |
| | Conduct repeated chance experiments; identify and describe possible outcomes, record the results, and recognise and discuss the variation (VC2M3P02) | 6.2 Predicting possible outcomes6.3 Predicting possible outcomes with spinners |

| Achievement standard | Topics and investigations | |
|--|--|---|
| By the end of Level 3, students order and represent natural numbers beyond 10 000, classify numbers as either odd or even, and use the properties of odd and even numbers. | 1.3 Regrouping numbers 2.3 Place value to thousands 3.2 Counting on and back by 1, 10, 100 3.3 Comparing numbers to 10 000 4.1 Ordering numbers to 10 000 4.1 Ordering numbers to 10 000 10.2 Place value to ten thousands 19.1 Place value beyond ten thousands 28.1 Japanese numeral system 32.1 Comparing and ordering numbers to 10 000 | Inv: Kilogram quest Topics covering odd and even numbers can be found in: Maths Trek 2 28.2 Odd and even number patterns Maths Trek 4 2.2 Odd and even numbers 2.3 Properties of odd and even numbers |
| They partition, rearrange and regroup two- and three-digit numbers in different ways to assist in calculations. | 1.3 Regrouping numbers 2.1 Addition with partitioning 2.2 Subtraction with partitioning 3.1 Expanded notation 10.3 Addition with bar models 11.1 Subtraction with bar models 14.1 Addition | 14.2 Subtraction19.2 Addition to three digits20.2 Subtraction to three digits28.2 Addition and subtractionInv: What's in a thousand words? |
| Students extend and use single-digit addition and related subtraction facts and apply additive strategies to model and solve problems involving two- and three-digit numbers. | Fact families for addition and subtraction Addition with partitioning Subtraction with partitioning Addition with bar models Subtraction with bar models Addition Subtraction Addition Addition Subtraction Addition to three digits | 20.2 Subtraction to three digits 21.3 Inverse operations 28.2 Addition and subtraction Inv: What's in a thousand words? Inv: Kilogram quest Inv: Big spender Inv: Trash or treasure |
| They use a range of strategies to apply mathematical modelling to solve practical problems involving single-digit multiplication and division, recalling multiplication facts for twos, threes, fours, fives and tens. | 4.2 Multiplication by 10 4.3 Number sentences and word problems 11.3 Equivalent number sentences 14.3 Solving problems with bar models 16.2 Multiples 2, 3, 4, 5, 10 17.1 Multiplication facts 3, 4 17.2 Multiplication facts 5, 10 17.3 Multiplication problem-solving | 24.1 Division facts 3, 4 24.2 Division facts 5, 10 24.3 Division problem-solving 25.1 Division 30.3 Fractions as division Inv: Picture perfect patterns Inv: Big spender Inv: Trash or treasure Inv: Top team |
| Students represent unit fractions and their multiples in different ways. | 29.3 Fractions as part of a whole30.1 Fractions as part of a group30.2 Fractions on a number line30.3 Fractions as division | Inv: Fraction action |
| They make estimates and determine the reasonableness of financial and other calculations. | 20.1 Rounding to tens and hundreds20.2 Subtraction to three digits23.1 Estimation strategies | Inv: Trash or treasure |
| Students find unknown values in number sentences involving addition and subtraction. | 11.3 Equivalent number sentences21.3 Inverse operations | Inv: Kilogram quest |

| Level 3 Achievement Standard | | |
|---|---|--|
| Achievement standard | Topics and investigations | |
| They create algorithms to investigate numbers and explore simple patterns. | 16.1 Number patterns16.2 Multiples 2, 3, 4, 5, 1016.3 Multiples and repeated addition23.2 Input and output | Inv: Picture perfect patterns |
| Students use familiar metric units when estimating, comparing and measuring the attributes of objects and events. | 8.1 Measuring with metres 8.2 Measuring with centimetres 8.3 Measuring with metres and centimetres 12.1 Measuring with kilograms 12.2 Measuring with grams 12.3 Measuring with kilograms and grams | 15.2 Measuring with litres 15.3 Measuring with millilitres Inv: How do I measure up? Inv: Kilogram quest Inv: Top team Inv: Sprouting surprises |
| They identify angles as measures of turn and compare them to right angles. | 25.2 Angles32.2 Right angles | Inv: Kakadu crossing |
| Students estimate and compare measures of duration using formal units of time. | 7.1 Time past the hour 15.1 Time to the hour 19.3 Time to and past the hour 23.3 Time to the nearest minute 29.1 Seconds, minutes, hours, days 29.2 Duration of time | Inv: It's on the cards Inv: Top team |
| They represent money values in different ways. | 21.1 Equivalent values of money21.2 Dollars and cents | Inv: Trash or treasure |
| Students make, compare and classify objects using key features. | 25.3 Connecting cubes26.1 Face, edge, vertex26.2 Pyramids and prisms26.3 Cylinders, cones, spheres | Inv: Cube conundrum |
| They interpret and create two-dimensional representations of familiar environments. | 32.3 Maps and plans | Inv: Kakadu crossing |
| Students conduct guided statistical investigations involving categorical and discrete numerical data and interpret their results in terms of the context. | 6.2 Predicting possible outcomes6.3 Predicting possible outcomes with spinners | Inv: How do I measure up? Inv: Sprouting surprises |
| They record, represent and compare data they have collected. | 6.1 Collecting and organising data 7.2 Column graphs 7.3 Interpreting graphs 10.1 Picture graphs 11.2 Comparing tables and graphs 28.3 Column graphs | Inv: How do I measure up? Inv: Top team Inv: Sprouting surprises |
| Students use practical activities, observation or experiment to identify and describe outcomes and the likelihood of everyday events explaining reasoning. | 6.2 Predicting possible outcomes6.3 Predicting possible outcomes with spinners | |
| Students conduct repeated chance experiments and discuss variation in results. | 6.2 Predicting possible outcomes6.3 Predicting possible outcomes with spinners | |

| Strand | Content description | Topics | |

| Number | Interpret, compare and order numbers with more than 2 decimal places, including numbers greater than one, using place value understanding; represent these on a number line (VC2M5N01) | Place value to millions Place value to thousandths Place value beyond millions Comparing decimals Place value and expanded notation | |
| | Express natural numbers as products of their factors, recognise multiples and determine if one number is divisible by another (VC2M5N02) | 14.3 Turnarounds and friendly pairs 16.1 Multiples 16.2 Multiples using algorithms 17.1 Factors 23.3 Divisibility rules | |
| | Compare and order common unit fractions with the same and related denominators, including mixed numerals, applying knowledge of factors and multiples; represent these fractions on a number line (VC2M5N03) | 19.3 Comparing and ordering fractions20.2 Equivalent fractions21.1 Mixed numerals and improper fractions | |
| | Recognise that 100% represents the complete whole and use percentages to describe, represent and compare relative size; connect familiar percentages to their decimal and fraction equivalents (VC2M5N04) | 7.3 Percentages21.3 Percentages | |
| | Solve problems involving addition and subtraction of fractions with the same or related denominators, using different strategies (VC2M5N05) | 20.1 Adding and subtracting fractions20.3 Adding and subtracting fractions | |
| | Solve problems involving multiplication of larger numbers by one- or two-digit numbers, choosing efficient mental and written calculation strategies and using digital tools where appropriate; check the reasonableness of answers (VC2M5N06) | 6.3 Multiplication using the area model 7.1 Multiplication using split and multiply 10.2 Multiplication - 3 digits × 1 digit 24.2 Multiplication - 4 digits × 1 digit 24.3 Multiplication by tens and hundreds | 25.1 Multiplication using the area model 25.2 Multiplication – 3 digits × 2 digits |
| | Solve problems involving division, choosing efficient mental and written strategies and using digital tools where appropriate; interpret any remainder according to the context and express results as a whole number, decimal or fraction (VC2M5N07) | 15.3 Division 16.3 Division 17.3 Division with remainders 24.1 Division with remainders 29.1 Division with remainders as fractions 29.2 Division with remainders to tenths 29.3 Division with remainders to hundredths | |

| Strand | Content description | Topics | , |
|-------------|--|---|---|
| Number | Check and explain the reasonableness of solutions to problems including financial contexts using estimation strategies appropriate to the context (VC2M5N08) | 2.3 Rounding to ten thousands 3.1 Estimation strategies 28.2 Rounding using a target digit strategy 28.3 Estimation strategies | |
| | Use mathematical modelling to solve practical problems involving additive and multiplicative situations, including simple financial planning contexts; formulate the problems, choosing operations and efficient mental and written calculation strategies, and using digital tools where appropriate; interpret and communicate solutions in terms of the situation (VC2M5N09) | 2.1 Addition 2.2 Subtraction 6.3 Multiplication using the area model 7.1 Multiplication using split and multiply 10.2 Multiplication – 3 digits × 1 digit 14.2 Addition 15.1 Subtraction with zeros 19.2 Budgets 32.1 Budgets | |
| | Follow a mathematical algorithm involving branching and repetition (iteration); create and use algorithms involving a sequence of steps and decisions and digital tools to experiment with factors, multiples and divisibility; identify, interpret and describe emerging patterns (VC2M5N10) | 16.1 Multiples16.2 Multiples using algorithms17.1 Factors | |
| Algebra | Recognise and explain the connection between multiplication and division as inverse operations and use this to develop families of number facts (VC2M5A01) | 1.3 Fact families for multiplication and division15.2 Inverse operations | |
| | Find unknown values in numerical equations involving multiplication and division using the properties of numbers and operations (VC2M5A02) | 14.3 Turnarounds and friendly pairs15.2 Inverse operations17.2 Equivalent number sentences | |
| Measurement | Choose appropriate metric units when measuring the length, mass and capacity of objects; use smaller units or a combination of units to obtain a more accurate measure (VC2M5M01) | 8.1 Measuring mass 14.1 Measuring with kilometres 25.3 Choosing units of measurement 26.1 Measuring with litres and millilitres | |
| | Solve practical problems involving the perimeter and area of regular and irregular shapes using appropriate metric units (VC2M5M02) | 10.3 Calculating perimeter11.1 Area11.2 Perimeter of rectangles11.3 Area of rectangles | |
| | Compare 12- and 24-hour time systems and solve practical problems involving the conversion between them (VC2M5M03) | 3.2 24-hour time3.3 Reading timetables4.1 Australian time zones | |

| Strand | Content description | Topics |
|-------------|---|--|
| Measurement | Estimate, construct and measure angles in degrees, using appropriate tools including a protractor, and relate these measures to angle names (VC2M5M04) | 23.1 Classifying angles23.2 Measuring angles 0° to 180°32.3 Measuring angles 0° to 360° |
| Space | Connect objects to their nets and build objects from their nets using spatial and geometric reasoning (VC2M5SP01) | 32.2 Nets of objects |
| | Construct a grid coordinate system that uses coordinates to locate positions within a space; use coordinates and directional language to describe position and movement (VC2M5SP02) | 4.2 Directional language 4.3 Coordinates and directions 12.2 Directions, turns, degrees 19.1 Coordinates to locate position |
| | Describe and perform translations, reflections and rotations of shapes, using dynamic geometry software where appropriate; recognise what changes and what remains the same, and identify any symmetries (VC2M5SP03) | 12.1 Rotational symmetry12.3 Translation, reflection, rotation |
| Statistics | Acquire, validate and represent data for nominal and ordinal categorical and discrete numerical variables, to address a question of interest or purpose using software including spreadsheets; discuss and report on data distributions in terms of highest frequency (mode) and shape, in the context of the data (VC2M5ST01) | 6.2 Categorical and numerical data 8.2 Dot plots 8.3 Column graphs 26.2 Ordinal data 26.3 The mode |
| | Interpret line graphs representing change over time; discuss the relationships that are represented and conclusions that can be made (VC2M5ST02) | 6.1 Line graphs26.3 The mode |
| | Plan and conduct statistical investigations by posing questions or identifying a problem and collecting relevant data; choose appropriate displays and interpret the data; communicate findings within the context of the investigation (VC2M5ST03) | 8.2 Dot plots8.3 Column graphs30.3 Fair and unfair outcomes |
| Probability | List the possible outcomes of chance experiments involving equally likely outcomes and compare to those that are not equally likely (VC2M5P01) | 30.1 Measures of probability30.2 Comparing probability30.3 Fair and unfair outcomes |

| Strand | Content description | Topics | |
|-------------|--|---|--|
| Probability | Conduct repeated chance experiments, including those with and without equally likely outcomes, and observe and record the results; use frequency to compare outcomes and estimate their likelihoods (VC2M5P02) | 30.1 Measures of probability30.2 Comparing probability30.3 Fair and unfair outcomes | |

| Level 5 Achievement Standard | | |
|---|--|---|
| Achievement standard | Topics and investigations | |
| By the end of Level 5, students use place value to write and order decimals including decimals greater than one. | Place value to millions Place value to thousandths Place value beyond millions Comparing decimals Place value and expanded notation | Inv: Twinkle twinkle |
| They express natural numbers as products of factors and identify multiples and divisors. | 16.1 Multiples16.2 Multiples using algorithms17.1 Factors23.3 Divisibility rules | Inv: Factor frenzy |
| Students order and represent, add and subtract fractions with the same or related denominators. | 19.3 Comparing and ordering fractions 20.1 Adding and subtracting fractions 20.2 Equivalent fractions 20.3 Adding and subtracting fractions 21.1 Mixed numerals and improper fractions | Inv: Dynamic dominoes Inv: Score a duck |
| They represent common percentages and connect them to their fraction and decimal equivalents. | 7.3 Percentages21.3 Percentages | Inv: Breakfast club Inv: Dynamic dominoes Inv: Score a duck |
| Students use their proficiency with multiplication facts and efficient mental and written calculation strategies to multiply large numbers by one- and two-digit numbers and divide by one-digit numbers. | 6.3 Multiplication using the area model 7.1 Multiplication using split and multiply 10.2 Multiplication – 3 digits × 1 digit 15.3 Division 16.3 Division 17.3 Division with remainders 24.1 Division with remainders 24.2 Multiplication – 4 digits × 1 digit 24.3 Multiplication by tens and hundreds 25.1 Multiplication using the area model | 25.2 Multiplication – 3 digits × 2 digits 29.1 Division with remainders as fractions 29.2 Division with remainders to tenths 29.3 Division with remainders to hundredths Inv: Factor frenzy Inv: Down the drain Inv: Twinkle twinkle Inv: If I were a Martian Inv: Never a cross word |
| They check the reasonableness of their calculations using estimation. | 2.3 Rounding to ten thousands 3.1 Estimation strategies 28.2 Rounding using a target digit strategy 28.3 Estimation strategies | Inv: Factor frenzy Inv: Twinkle twinkle Inv: Never a cross word |

| Achievement standard | Topics and investigations | |
|---|--|--|
| Students use mathematical modelling to solve financial and other practical problems, formulating and solving problems, choosing arithmetic operations and interpreting results in terms of the situation. | 2.1 Addition 2.2 Subtraction 14.2 Addition 15.1 Subtraction with zeros 19.2 Budgets 32.1 Budgets | Inv: If I were a Martian Inv: Finals fever |
| Students apply properties of numbers and operations to find unknown values in numerical equations involving multiplication and division. | Fact families for multiplication and division Turnarounds and friendly pairs Inverse operations Equivalent number sentences | Inv: Breakfast club Inv: Down the drain |
| They design and use algorithms to identify and explain patterns in the factors and multiples of numbers. | 16.2 Multiples using algorithms17.1 Factors | Inv: Factor frenzy |
| Students choose and use appropriate metric units to measure the attributes of length, mass and capacity, and to solve problems involving perimeter and area. | 8.1 Measuring mass 10.3 Calculating perimeter 11.1 Area 11.2 Perimeter of rectangles 11.3 Area of rectangles 14.1 Measuring with kilometres | 25.3 Choosing units of measurement 26.1 Measuring with litres and millilitres Inv: Radical renovation Inv: Down the drain |
| Students convert between 12- and 24-hour time. | 3.2 24-hour time3.3 Reading timetables4.1 Australian time zones | Inv: Race around Australia Inv: Finals fever |
| They estimate, construct and measure angles in degrees. | 23.1 Classifying angles23.2 Measuring angles 0° to 180°32.3 Measuring angles 0° to 360° | Inv: Twinkle twinkle |
| Students use grid coordinates to locate and move positions. | 4.2 Directional language 4.3 Coordinates and directions 12.2 Directions, turns, degrees 19.1 Coordinates to locate position | Inv: Race around Australia |
| Students connect objects to their two-dimensional nets. | 32.2 Nets of objects | Inv: Baffling blocks |
| They perform and describe the results of ransformations and identify any symmetries. | 12.1 Rotational symmetry12.3 Translation, reflection, rotation | Inv: Radical renovation |
| Students plan and conduct statistical investigations that collect nominal and ordinal categorical and discrete numerical data with and without digital cools. | 6.2 Categorical and numerical data 8.2 Dot plots 8.3 Column graphs 26.2 Ordinal data 30.3 Fair and unfair outcomes | Inv: Breakfast club Inv: Down the drain |
| Students identify the mode and interpret the shape of distributions of data in context. | 26.3 The mode | |
| They interpret and compare data represented in in in graphs. | 6.1 Line graphs26.3 The mode | |
| Students conduct repeated chance experiments, ist the possible outcomes, estimate likelihoods and make comparisons between those with and | 30.1 Measures of probability30.2 Comparing probability30.3 Fair and unfair outcomes | Inv: Score a duck |

| Level o | 6 Content Descriptions | |

| By the end of Level 6, students use integers to represent points on a number line and in the Cartesian plane. | Positive and negative numbers Coordinates in one quadrant Positive and negative numbers Coordinates in four quadrants | Inv: Curious coordinates |
| They solve problems using the properties of prime, composite, square and triangular numbers. | 2.2 Square numbers2.3 Prime and composite numbers3.1 Factor trees | Inv: Lilja's locked level |
| Students order common fractions, giving reasons, and add and subtract fractions with related denominators. | Comparing and ordering fractions Equivalent fractions Adding and subtracting fractions Adding and subtracting fractions | Inv: Educational entrepreneur |
| They use all 4 operations with decimals and connect decimal representations of measurements to the metric system. | 7.2 Metric system of measurement 15.3 Rounding decimals 16.1 Decimal addition to tenths 16.2 Decimal subtraction to tenths 16.3 Decimal addition to hundredths 17.1 Decimal subtraction to hundredths 19.2 Decimal multiplication 19.3 Decimal division 25.1 Decimal addition to thousandths 25.2 Decimal subtraction to thousandths | 25.3 Multiply decimals by 10, 100, 1000 26.1 Decimal multiplication 26.2 Decimal division 26.3 Decimal multiplication and division 28.1 Decimals with the four operations Inv: Is petrol pricey? |
| Students solve problems involving finding a fraction, decimal or percentage of a quantity and use estimation to find approximate solutions to problems involving rational numbers and percentages. | 2.1 Fractions as division 6.2 Renaming fractions as percentages 15.3 Rounding decimals 20.1 Renaming fractions as percentages | 20.2 Discount28.3 PercentagesInv: Is petrol pricey? |
| They use mathematical modelling to solve financial and other practical problems involving percentages and rational numbers, formulating and solving the problem, and justifying choices. | 3.2 Multiplication 3.3 Division 20.2 Discount 21.1 Budgets 28.3 Percentages | Inv: Lilja's locked level Inv: Happy hippos Inv: Fantasy flight Inv: Is petrol pricey? |
| Students find unknown values in numerical equations involving combinations of arithmetic operations. | 4.3 Inverse operations to check calculations 6.3 Multi-step problems add and subtract 7.1 Estimation strategies 14.2 Order of operations 14.3 Balancing equations | 20.3 Multi-step problems 23.3 Inverse operations to solve problems Inv: Lilja's locked level Inv: Fantasy flight |
| They identify and explain rules used to create growing patterns. | 4.1 Investigating patterns 4.2 Patterns in a table of values 28.2 Patterns and rules | Inv: Lilja's locked level Inv: Clever containers |

| Achievement standard | Topics and investigations | |
|--|---|--|
| They design and use algorithms to generate sets of numbers, using a rule. | 14.1 Function machines | Inv: Clever containers |
| Students interpret and use timetables, and measure, calculate and compare elapsed time. | 10.1 Reading timetables21.2 Reading and interpreting timetables21.3 Calculating duration | Inv: Fantasy flight |
| They convert between common units of length, mass and capacity. | 7.2 Metric system of measurement7.3 Perimeter of rectangles8.1 Area of rectangles8.2 Area of composite rectangles | 8.3 Area and perimeter23.2 Measuring with tonnes and kilogramsInv: Is petrol pricey? |
| They use the formula for the area of a rectangle and angle properties to solve problems. | 6.1 Properties of angles8.1 Area of rectangles8.2 Area of composite rectangles | 8.3 Area and perimeter24.2 Properties of shapesInv: Happy hippos |
| Students identify the parallel cross-section for right prisms. | 23.1 Cross-sections | |
| They create tessellating patterns using combinations of transformations. | 24.3 Tessellations30.3 Transformations | Inv: Curious coordinates Inv: Octi-origami |
| They locate an ordered pair in any one of the 4 quadrants on the Cartesian plane. | 19.1 Coordinates in one quadrant32.2 Coordinates in four quadrants32.3 Transformations with coordinates | Inv: Curious coordinates |
| Students compare distributions of discrete and continuous numerical and ordinal categorical data sets as part of their statistical investigations, using digital tools. | 10.2 Categorical and numerical data 10.3 Ordinal and nominal data 11.1 Side-by-side column graphs 11.2 Line graphs 11.3 Stacked line graphs 12.1 Bar charts 12.2 Mode and range | 29.1 Comparing probability 30.2 Discrete and continuous data Inv: Unique you Inv: Record breaker Inv: Weird or wonderful weather |
| They critique arguments presented in the media based on statistics. | 12.3 Comparing graphs17.2 Misleading data and graphs17.3 Causes of bias | Inv: Record breaker |
| Students assign probabilities using common fractions, decimals and percentages. | 29.1 Comparing probability29.2 Expected probability29.3 Observed probability | Inv: Practice makes perfect Inv: Educational entrepreneur |
| They conduct simulations using digital tools, to generate and record the outcomes from many trials of a chance experiment. | 30.1 Repeated probability experiments | Inv: Practice makes perfect |
| They compare observed frequencies to the expected frequencies of the outcomes of chance experiments. | 29.1 Comparing probability29.2 Expected probability29.3 Observed probability | Inv: Practice makes perfect Inv: Educational entrepreneur |
